Analytics Vidhya

Course Objectives

Dipanjan Sarkar

Head of Community & Principal AI Scientist at Analytics Vidhya

Google Developer Expert - ML & Cloud Champion Innovator

Published Author

Key Objectives

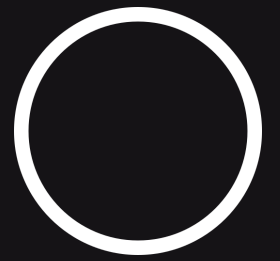
- Understand key components of LangGraph
- Learn the building blocks of Agentic AI Systems
- Build Simple Agentic AI Systems with LangGraph
- Build Advanced Agentic AI Systems with LangGraph

Analytics Vidhya

Key Components of LangGraph

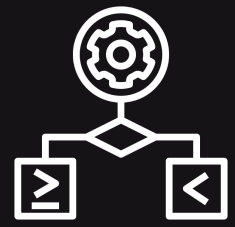
Agent States & Messages

Directed Graphs

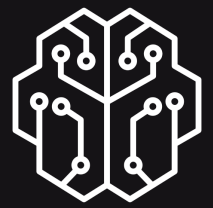


Nodes

Edges



Conditional Edges

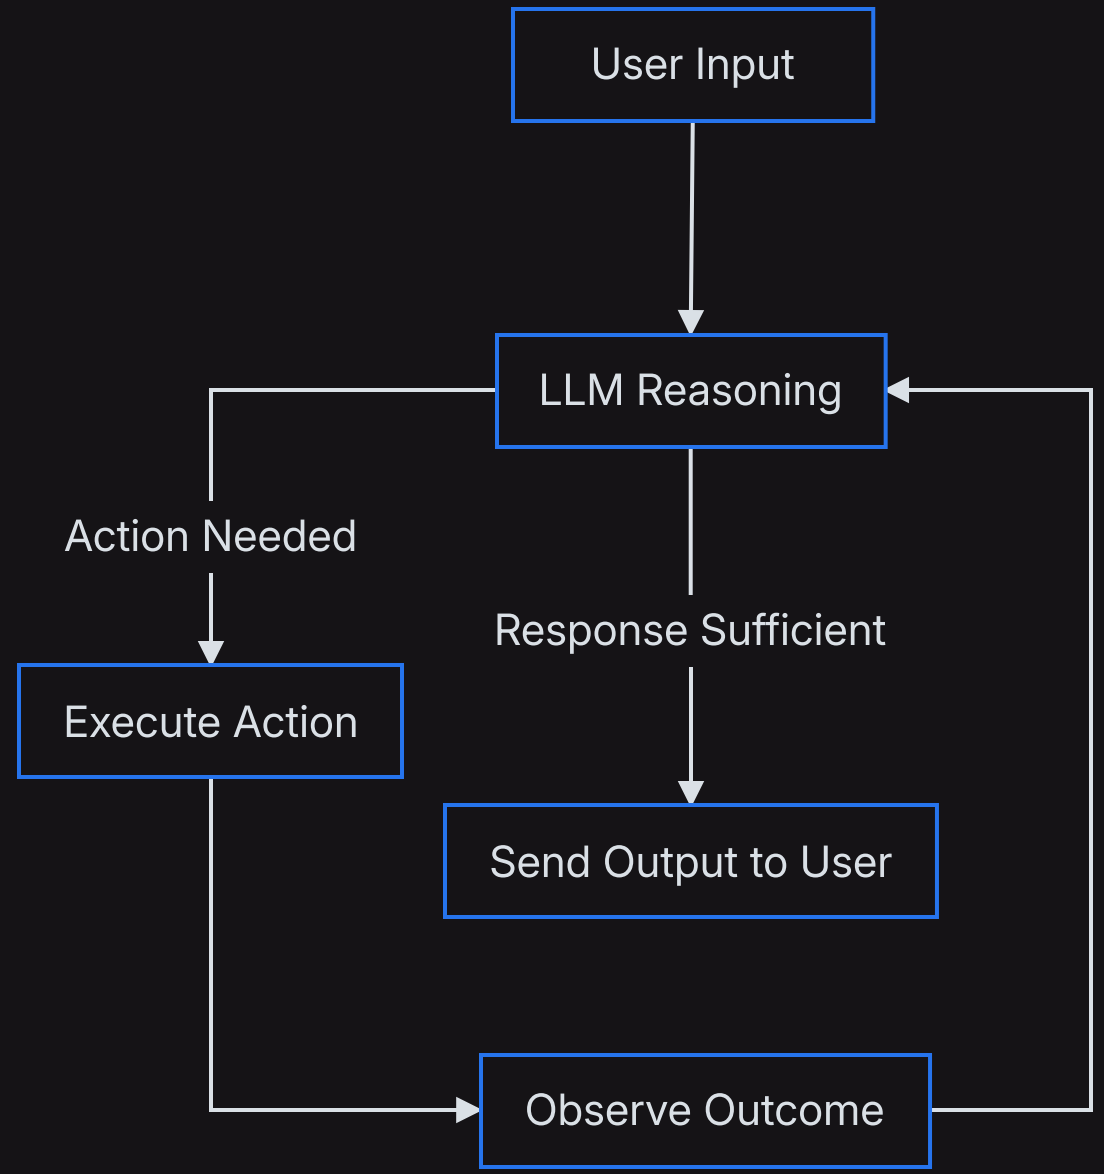


Memory & Threads

Analytics Vidhya

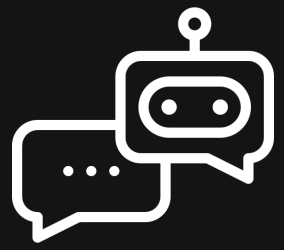
The Agent Loop

- LLMs
- Tools
- Node Functions
- Execution Loops
- Observations

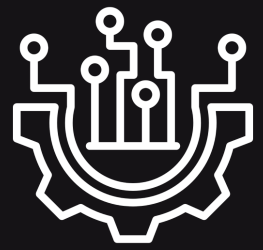


Analytics Vidhya

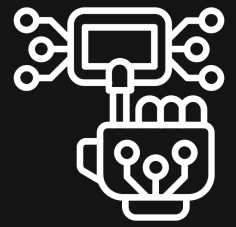
Build Simple Agentic AI Systems with LangGraph



Simple LLM-Powered Chatbots



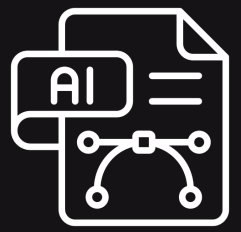
Augmented LLM with Tools



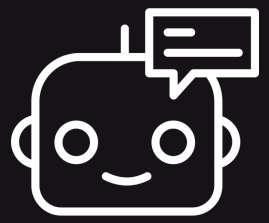
Simple Tool-Based ReAct Agents

Analytics Vidhya

Build Advanced Agentic AI Systems with LangGraph

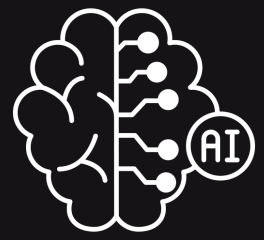


Design, Architect and Develop Complex Agentic AI Systems



Multi-User Conversational Agentic AI Systems

Reflection, Planning and Multi-Agent Systems



Agentic AI Systems combining popular Agentic design patterns

Analytics Vidhya
